

# H. Barber & Sons, Inc.

Family held company since  
1966

Leader in beach cleaners  
sales in the US for 49 years

Sales in 94 countries  
around the globe

# Worldwide beach cleaning

- ▶ Quality, dependable, efficient and affordable equipment enables us to continuously expand our reach to bring the Barber beach cleaning experience to customers all around the globe.

# Methods of Beach Cleaning

- ▶ Every beach cleaner has a primary method of cleaning
- ▶ Scraping, Raking or Sifting
- ▶ Hybrids:
  - Some rake and sift
  - Some sift and rake
- ▶ Raking works best in wet sand applications such as removing sargassum from the tide line.

# Beach Classifications (European Conventions)

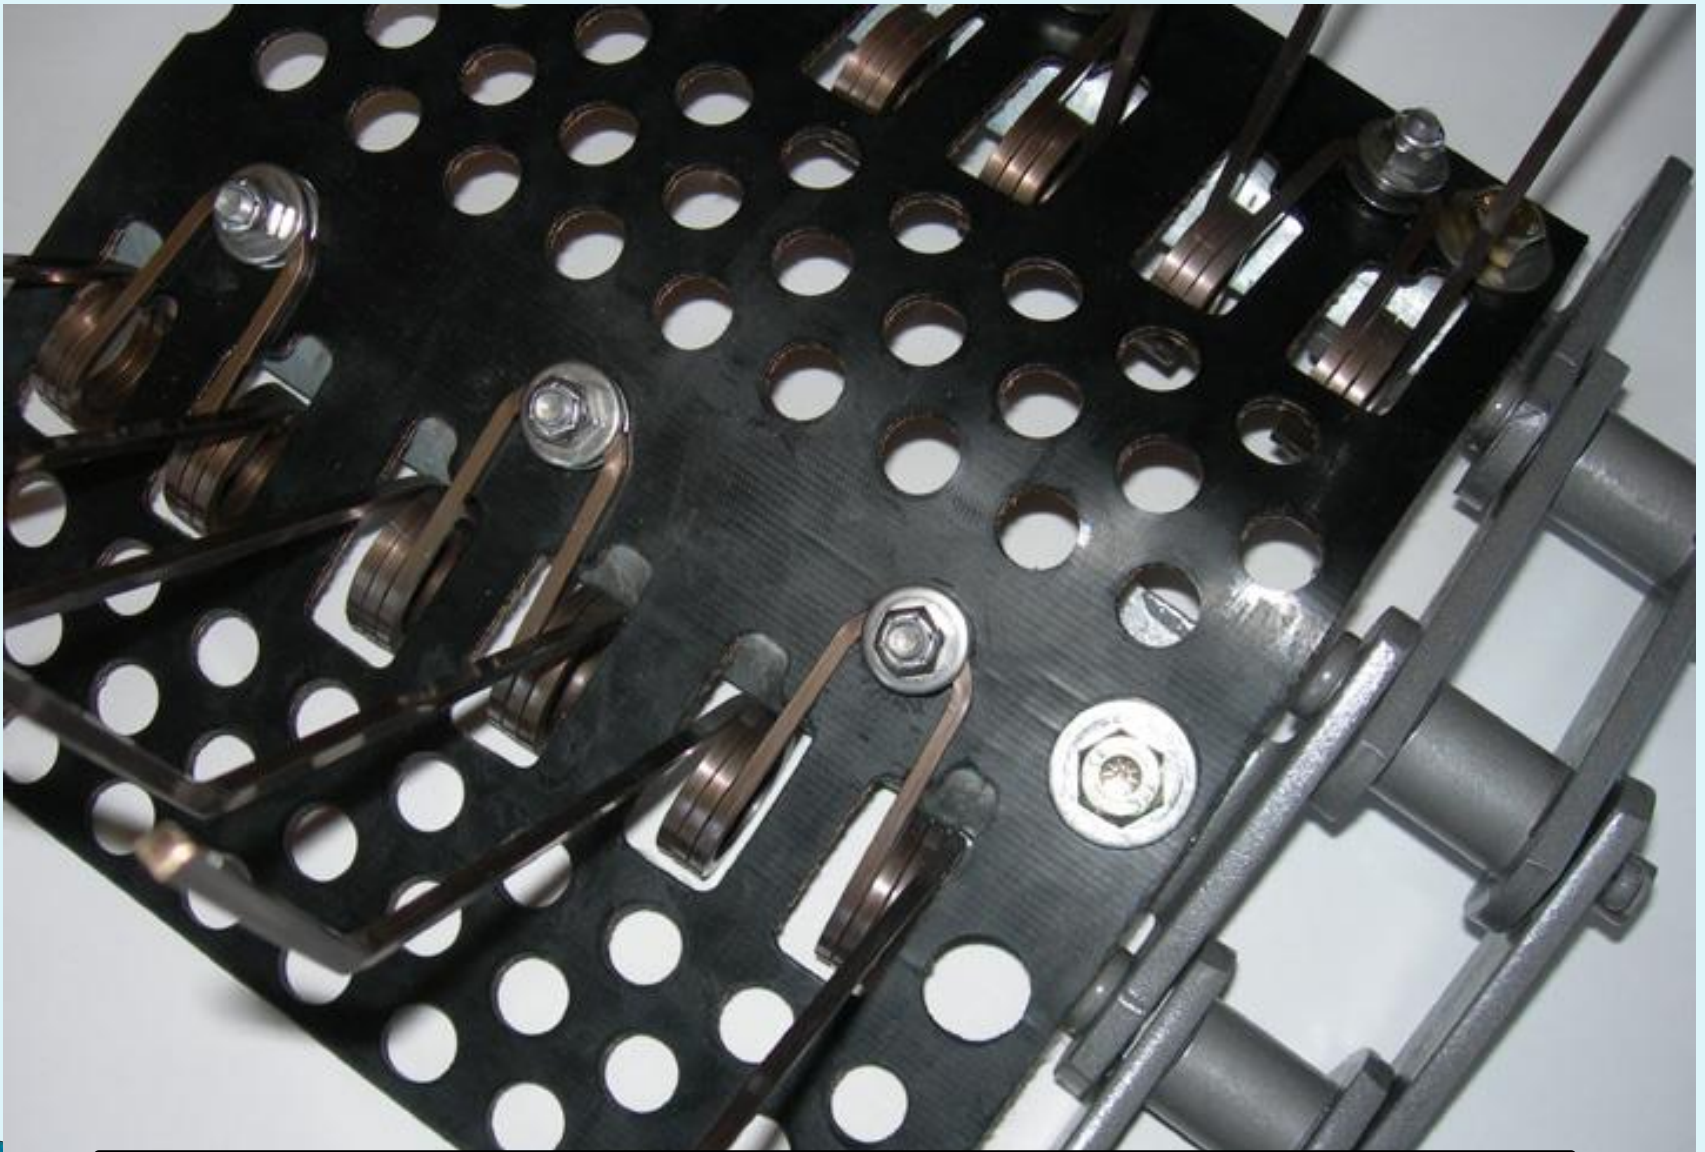

- Urban:
  - Heavily populated, heavy traffic
- Recreational:
  - Accessible, moderate use
- Natural:
  - Inaccessible little/no human intervention
